Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

Applicants have amended the claims in compliance with the office action dated 04/01/05. Upon further consideration, claims 1-10 are allowed. Particularly, prior art of record (closest reference Rocco), taking individually or collectively, fails to fairly teach a data receiving system, as a whole, including "first judging means for judging the received data value primarily based on either one of said received data sampling value and said delayed data sampling value; and second judging mean for judging the received data value secondarily based on the other of said received data sampling value and said delayed data sampling value when said first judging mean fails to judge the received data value, and said received data judging mean judges the received data value with reference to same sampling values continuously appearing N times in a sampling operation, N being a natural number" as claimed in independent claims 1 and 4 (claims 2-4, 5-10 depend therefrom). Thus, claims 1-10 are found to be novel and unobvious over prior art of record.
